### The Full Detailed Privacy Policy

#### **1. What Information Does the Service Collect?**

##### **Information You Provide to Us**

**Personal Information and Demographic Information.** On the Service, we may ask you to provide us with certain categories of information such as: (1) personally identifiable information, which is information that identifies you personally, such as your first and last name, e-mail address, credit card number or other payment (or donation) information, phone number and home address (“**Personal Information**”); and (2) demographic information, such as information about gender, marital status and occupation (“**Demographic Information**”). We may collect this information through various forms and in various places on the Service, including contact us forms, e-mail newsletter registration or when you otherwise interact with the Service. To the extent we combine Demographic Information with your Personal Information we collect directly from you on the Service, we will treat the combined data as Personal Information under this Privacy Policy.

##### **(b) Information Collected or Stored As You Access and Use the Service**

In addition to any Personal Information or other information that you choose to submit to us via

our Service, we and our third-party service providers may use a variety of technologies that automatically (or passively) store or collect certain information whenever you visit or interact with the Service (“**Usage Information**”). This Usage Information may be stored or accessed using a variety of technologies that may be downloaded to your personal computer, browser, laptop, tablet, mobile phone or other device (a “**Device**”) whenever you visit or interact with our Service. To the extent we associate Usage Information with your Personal Information we collect directly from you on the Service, we will treat it as Personal Information.

This Usage Information may include:

your IP address, UDID or other unique identifier (“**Device Identifier**”). A Device Identifier is a number that is automatically assigned to your Device used to access the Service, and our computers identify your Device by its Device Identifier;

your Device functionality (including browser, operating system, hardware, mobile network information);

the URL that referred you to our Service;

the areas within our Service that you visit and your activities there, including remembering you and your preferences;

your Device location;

your Device characteristics; and

certain other Device data, including the time of day, among other information.

**Tracking Technologies.** We may use various methods and technologies to store or collect Usage Information (“**Tracking Technologies**”). Tracking Technologies may set, change, alter or modify settings or configurations on your Device. A few of the Tracking Technologies include, without limitation, the following (and subsequent technology and methods later developed):

**Cookies.** A cookie is a data file placed on a Device when it is used to visit the Service. A Flash cookie (or locally shared object) is a data file placed on a Device via the Adobe Flash plug-in that may be built-in to or downloaded by you to your Device. HTML5 cookies can be programmed through HTML5 local storage.

**Web Beacons.** Small graphic images or other web programming code called web beacons (also known as “1x1 GIFs” or “clear GIFs”) may be included in our Service’s pages and messages. Web beacons may be invisible to you, but any electronic image or other web programming code inserted into a page or e-mail can act as a web beacon. Web beacons or similar technologies may be used for a number of purposes, including, without limitation, to count visitors to the Service, to monitor how users navigate the Service, to count how many e-mails that were sent were actually opened or to count how many particular articles or links were actually viewed.

**Embedded Scripts.** An embedded script is programming code that is designed to collect information about your interactions with the Service, such as the links you click on. The code is temporarily downloaded onto your Device from our web server or a third party service provider, is active only while you are connected to the Service, and is deactivated or deleted thereafter.

**Browser Fingerprinting.** Collection and analysis of information from your Device, such as, without limitation, your operating system, plug-ins, system fonts and other data, for purposes of

identification.

***ETag, or Entity Tag.*** A feature of the cache in browsers. It is an opaque identifier assigned by a web server to a specific version of a resource found at a URL. If the resource content at that URL ever changes, a new and different ETag is assigned. Used in this manner ETags are a form of Device Identifier. ETag tracking may generate unique tracking values even where the consumer blocks HTTP, Flash, and/or HTML5 cookies.

***Recognition Technologies.*** Technologies, including application of statistical probability to data sets, which attempt to recognize or make assumptions about users and devices (e.g., that a user of multiple devices in the same user).

***Location-identifying Technologies.*** Additionally, the Services may use GPS (global positioning systems) software and other location-based technologies such as iBeacons to locate you so we may verify your location, deliver you relevant content based on your location, as well as allow you to share your location to other users as part of the services we provide via the Services. In addition, you may be able to send your location information via the Services to other Services users. You should consider the pros and cons involved in disclosing your location information to us and to other people. Where a user of the Services requests that their location information be revealed to other persons, the user will be provided options for managing sharing services, which may be through third party services such as through Twitter and Facebook. We are not responsible for the acts, omissions or policies of such third parties.

**Tracking Technologies Usage.** We may use Tracking Technologies for a variety of purposes, including:

#### **4. Do Third-Party Content, Links To Third-Party Sites, and/or Third-Party Apps Appear on the Service?**

The Service may contain content that is supplied by a third party, and those third parties may collect Usage Information and your Device Identifier when pages from the Service are served to you. In addition, when you are on the Service you may be directed to other services that are operated and controlled by third parties that we do not control. We are not responsible for the data collection and privacy practices employed by any of these third parties or their services and they may be tracking you across multiple sites and may be sharing the results of that tracking with us and/or others. For example, if you “click” on a link, the “click” may take you off the Service onto a different site. These other sites may associate their Tracking Technologies with you, independently collect data about you, including Personal Information, and may or may not have their own published privacy policies.

Third-party applications may also be available via the Service. The owners of these applications (“**Third-Party Owners**”) may collect Personal Information and other data from you and may have their own policies and practices. We are not responsible for how Third-Party Owners or their applications collect or use your information and they may be tracking you across multiple sites and may be sharing the results of that tracking with us and/or others. These Third-Party Owners may have their own terms of service, privacy policies or other policies and ask you to agree to the same. We are not responsible for these third-party privacy policies or the practices of Third-Party Owners. Be sure to review any available policies before submitting any personally identifiable information to a third-party application or otherwise interacting with it and exercise caution in connection with these applications. We also encourage you to note when you leave our Service and to review the third-party privacy policies of all third-party locations and exercise caution in connection with them.

#### **5. Are Ads Served On the Service?**

The Service may use third parties such as network advertisers and ad exchanges to serve advertisements on the Service and may use third-party analytics and other service providers to evaluate and provide us and/or third parties with information about the use of the Service and viewing of ads and of our content. Network advertisers are third parties that display advertisements, which may be based on your visits to the Service and other apps and sites you have visited. Third-party ad serving enables us and/or third parties to target advertisements to you for products and services in which you might be interested.

The Service’s third-party ad network and exchange providers, the advertisers, the sponsors and/or traffic measurement services may themselves set and access their own cookies (including Flash cookies), web beacons and other Tracking Technologies on your Device and track certain behavioral Usage Information regarding users of your Device via a Device Identifier. These third-party Tracking Technologies may be set to, among other things: (a) help deliver advertisements to you that you might be interested in; (b) prevent you from seeing the same advertisements too many times; and (c) understand the usefulness to you of the advertisements that have been delivered to you. You acknowledge and agree that associated technology may access and use your Device and may set or change settings on your Device in connection with the associated operations. Note that any images (or any other parts of content) served by third parties

in association with third-party ads or other content may serve as web beacons, which enable third parties to carry out the previously described activities.

Third-party Tracking Technologies are not controlled by us, even if they use our technology to help store or collect data. Statements regarding our practices do not apply to the methods for collecting information used by these third-party advertisers and others or the use of the information that such third parties collect. We do however work with third parties to make efforts to have you provided with information on their practices and any available opportunity to exercise choice. The relevant third party's terms of service, privacy policy, permissions, notices and choices should be reviewed regarding their collection, storage and sharing practices. We make no representations regarding the policies or practices of third-party advertisers or advertising networks or exchanges or related third parties.

Some may offer you certain choices regarding their practices, and information we have been informed of regarding such choices is available at the end of this Privacy Policy. Further, while we may use a variety of companies to serve advertisements on the Service, you may wish to visit [http://www.networkadvertising.org/optout\\_nonppii.asp](http://www.networkadvertising.org/optout_nonppii.asp), which provides information regarding this practice by Network Advertising Initiative (“NAI”) members, and your choices regarding having this information used by these companies, including the “opt-out” procedures of NAI members. Opting out of one or more NAI members only means that those NAI members no longer will be allowed under their own rules to deliver targeted content and/or ads to you, which will affect this and other sites, but does not mean you will no longer receive any targeted content and/or ads. Also, if your browsers are configured to reject cookies when you visit this opt-out page, or you subsequently erase your cookies, use a different Device or change web browsers, your NAI opt-out may not, or may no longer, be effective. Additional information is available on the NAI's web site accessible by the above link. You may also opt-out of receiving third-party behavioral ads on this site by visiting the Digital Advertising Alliance (“DAA”) web site at <http://www.aboutads.info/choices/#completed>. Similar limitations may apply to the DAA opt-out. We are not responsible for effectiveness of, or compliance with, any third-parties' opt-out options or programs.

## **6. How Do I Change My Information and Communications Preferences?**

You are responsible for maintaining the accuracy of the information you submit to us, such as your contact information provided as part of registration. The Service may allow you to review, correct or update Personal Information you have provided through the Service's forms or otherwise, and you may provide registration updates and changes by contacting us at [privacy@familyof3.org](mailto:privacy@familyof3.org). If so, we will make good faith efforts to make requested changes in our then active databases as soon as reasonably practicable (but we may retain prior information as business records). Please note that it is not always possible to completely remove or delete all of your information from our databases and that residual data may remain on backup media or for other reasons. When you edit your Personal Information or change your preferences on the Service, information that you remove may persist internally for Family of 3 's administrative purposes. You may cancel or modify our e-mail marketing communications you receive from us by following the instructions contained within our promotional e-mails. This will not affect subsequent subscriptions and if your opt-out is limited to certain types of e-mails the opt-out will be so limited. If you subscribe to text messages from us, you can terminate a particular text message subscription by reply texting “STOP.” Subsequent or different subscriptions will be unaffected. Please note that we reserve the right to send you certain communications relating to your account or use of our Service, such as administrative and service announcements and these transactional account messages may be unaffected if you choose to opt-out from receiving our marketing communications. If you have any questions about the Privacy Policy or practices described in it, you should contact us in the following ways: Postal Mail: Family of 3, a Robert

In fact, if you are a child under 18 years of age, you are not permitted to use the Service and should not send any information about yourself to us through the Service.

In the event that we become aware that we have collected personal information from any child, we will dispose of that information in accordance with COPPA and other applicable laws and regulations.
